

Audit Committee Agendas for 2017: *Emerging Issues & Best Practices*

Audit Committees continue to face many new and challenging issues and risks as we work through an already full agenda. Please join us as our panel of experts discuss how Audit Committees can prioritize hot topics in their agendas for 2017 including new accounting pronouncements, revenue recognition standards, cyber & risk management, voluntary increases in disclosures in AC proxy reports, and effective methods to make the best use of an Audit Committee's time. Today's program will include case studies for roundtable discussions by participants and ample time for Q&As with the panel. We hope you will then join us for a networking reception after today's session.

Panelist
Tony Anderson
Director
Exelon, Marsh McLennan
Avery Dennison, AAR
Corp

Panelist
Dave Landsittel
Former Chair
COSSO
Former Director
Molex

Panelist
